On average solar batteries sold in New Zealand have a price range of \$6000-\$20000. This range is quite broad; lower-capacity batteries are cheaper than high-capacity batteries. Other than this, some solar panel systems such as Tesla Powerwall 2 have built-in storage systems which are why they cost more.

\$50/panel for 250w panels isn't a great deal. I've searched across the country on marketplace and you can have used panels almost everywhere for about \$20 per 250w panel. Used vs new, at 11 years old, isn't going to make much of a difference. I have used 240w's that are 10 years old and still pull at nearly 100%.
