A 5000-watt solar generator can power various appliances and devices in the USA, whether you live in the USA or anywhere in the world. Depending on the equipment and wattage of the appliances, a 5000-watt solar generator can support many things at once. In general, it is estimated that a 5000-watt solar generator can power 13,500 watts of ...

Those little solar generators only offering 700 watts won't help you with running an a/c. For those saying you have to shell out big bucks like \$15,000 upward for a solar system that can run a 5000 BTU a/c, that's not the case anymore. It used to be the case, but there are some new units on the market that have come down a lot in price.

Watch The Video On The Professor reviews the WORLD'S LARGEST modular LFP power station by Bluetti!
