We hereby acknowledge that USP& E supplied over 25 MW in total Power Plant capacity for our clients in Sierra Leone, West Africa in ...

As more hospitals and essential facilities turn to solar power and advanced energy storage solutions, BSLBATT is poised to play a pivotal role in driving sustainable development throughout the region. Sierra Leone's government has made clear its commitment to renewable energy, with ambitious targets for increasing solar capacity in rural areas.

Challenge. Sierra Leone is one of the world's poorest countries, ranking 182 out of 189 on the United Nations' Human Development Index. One major impediment to economic growth is limited access to electricity: Only about one-quarter of the population has a reliable source of power and that shrinks to about six percent in rural parts of the country.

The Abu Dhabi Fund for Development announced a new loan program that would provide Sierra Leone with Dh 33 million, or about \$8.9 million, to construct a new solar power plant near Freetown, the capital and a major urban area. Called Solar Park Freetown, the project would provide an extra six megawatts to Sierra Leone's already burgeoning solar ...

This is part of the Regional Emergency Solar Power Intervention (RESPITE) project, the World is supporting four countries (Sierra Leone, Liberia, Togo and Tchad) with \$311 to boost the energy sector, diversify the energy mix, reduce dependence on fossil fuels, and also to reduce the burden of electricity on our National Budgets.
