being developed by Brockwell Storage and Solar, formerly known as RNA Energy. In March 2024, Brockwell Survey work is due to commence in August and run through Energy reached an agreement to until winter 2024/25. acquire 100% of RNA Energy, inheriting its solar and battery storage pipeline with a commitment to further investment.

RNA believes that the current energy crisis coupled by a significant imbalance burden that is today left with renewable energy generators offers a very compelling opportunity for flexibility assets such as storage on the medium to long term while the country still needs to significantly grow its renewable generation capacity to meet the EU Net-Zero targets.

Closing the financing for the two projects, which included a significant debt package, is one of the largest battery storage investments in the UK sector and reaffirms RNA's position as a leading energy storage and renewables platform with a deep, high quality, proprietary project pipeline.

Storage & Solar. Origination and development of BESS and solar projects across the UK. ... Brockwell's initial portfolio of projects was based in Scotland, in and around the coalfield areas, but has now been broadened to a UK nationwide portfolio. Explore more about us. Our strategy.
