LA Metro Improves Storage Safety and Efficiency With VLMs. Government agency meets U.S.-made contract requirement by selecting Modula VLM to meet storage safety and efficiency needs.. Metro, the Los Angeles County Metropolitan Transportation Authority, is the transportation planner, designer, builder and operator of the Los Angeles County's transportation system.

Which type of system do I need? Vertical Carousel storage systems have a series of carriers (shelves) supported by chains either side that rotate vertically in a loop like a ferris wheel. The shelves stop in front of a bench where the operator can pick from an ergonomic height. Shelves can be open or divided into sub-shelves which have a series of parts trays with dividers in them.

Automated vertical storage solutions, on the other hand, can deliver parts to the worker at the optimal height with the push of a few buttons. As a result, your employees will feel more comfortable and put themselves in fewer risky situations throughout a typical workday.

Compact vertical storage lifts store your articles vertically, securely and in a controlled way. Each vertical storage lift is adapted to make optimum use of the space. You save 70-90% of the floor space compared to standard shelving and pallet racks. A vertical storage lift has large effective load trays without posts or end panels that waste ...

If you're concerned about preserving the natural curvature of your gear, you may want to opt for vertical storage. These wall racks function the same as the freestanding vertical racks, but with the added benefit of space efficiency. Expert Picks: Jay Peak Ski & Snowboard Storage. Horizontal storage; Adjustable metal arms and track system
