

Australia has a massive pipeline of grid-scale battery energy storage projects. 16.5 GW of new battery projects could arrive in the NEM in the next 3 years.

Rendering of Akaysha Energy's Brendale project in Queensland. Image: Akaysha Energy. Australia's energy storage sector has seen a trio of significant announcements around ...

The Australian federal government's 32 GW Capacity Investment Scheme (CIS) is already bearing fruit, with a competitive tender seeking 600 MW of energy storage capacity ...

Project Aims Delivered as a partnership between the Australian Council of Learned Academies (ACOLA) and Australia's Chief Scientist, the ACOLA report on The Role of Energy Storage in ...

Australia has become a global leader in energy storage, driven by the need for renewable energy integration, grid stability, and the transition towards a low-carbon economy. ...

6 · Developers of a series of artificial intelligence factories being built across Australia at a cost of \$73.3 billion, say they will be 100% powered by renewable energy and could stimulate ...

Australia's energy sector is undergoing a notable shift with new data from market analyst Sunwiz showing a record surge in utility-scale battery ...

The project will be built with Wärtsilä's cutting-edge Quantum High Energy storage technology, recognised for its advanced safety features ...

The project examines the scientific, technological, economic and social aspects of the role that energy storage can play in Australia's transition to a low-carbon ...

Flow Power will add a DC-coupled BESS to its Cootamundra solar PV project (above) in New South Wales, Australia, next year. Image: Flow Power. Flow Power's chief ...

Technology group Wärtsilä has been contracted by EnergyAustralia to deliver 350 MW / 1474 MWh of capacity to the Wooreen Energy Storage System (WESS) in Victoria, ...

Since then, investment in grid-scale battery energy storage in Australia's National Electricity Market - or NEM - has continued. 25 projects are now commercially ...
