Where is Hanwha Q Cells based?

Germany-based Hanwha Q CELLS will build a large-scale module factory at its existing site in Cyberjaya, Malaysia. Boasting a total capacity of 800 MW, the new fab will include four production lines and automated equipment for the company's high performing solar modules.

When will Hanwha Q Cells start production at Cyberjaya?

The construction of the module production facility at the Cyberjaya site will start in early 2015. Hanwha Q CELLS will start to move in the production equipment in parallel. The new production lines are planned to be ready for a first test production in Q3 2015 and expected to reach full utilization by early 2016.

Why is Cyberjaya launching a new module Fab?

"The new module fab in Cyberjaya is the logical next step in carrying forward the company's international setup of R&D and mass production," Kim added.
