

Azerbaijan top power station

Which power stations are in Azerbaijan?

The following page lists all power stations in Azerbaijan. / 40.79; 47.028333 (Mingachevir) / 40.947038; 46.171074 (Shamkir Hydroelectric Power Station) / 40.919167; 46.282778 (Yenikend Hydroelectric Power Station) / 39.159722; 46.934722 (Khoda Afarin Hydroelectric Power Station)

What is the largest hydroelectric power plant in Azerbaijan?

The largest hydroelectric power plant is Mingachevir; it has an installed capacity of 402 MW and is situated on the Kura River. Furthermore, there are presently three more hydroelectric power plants with an installed capacity of more than 100 MW in Azerbaijan, all of which are situated on the Kura River.

What is the maximum power flow in Azerbaijan?

The maximum power flows in Azerbaijan are 351MW on the 500kV Azerbaijan-Absheron line, 339MW (transmitting capacity 659MW) on the 330kV Azerbaijan-Agcabedil line, and 188MW (transmitting capacity 300MW) on the 220kV Sanaya-Sumgayit line.

What is the power potential of rivers in Azerbaijan?

The power generation potential of the rivers in Azerbaijan is estimated at 40 billion kilowatt per hour, and feasible potential is 16 billion kilowatt per hour. Small-scale hydro has significant developmental potential in Azerbaijan. In particular, the lower reaches of the Kura river, the Aras river and other rivers flowing into the Caspian Sea.

What is the main renewable resource in Azerbaijan?

Water is the main renewable resource contributing to the energy supply in Azerbaijan and this accounted for 18% of electricity generation in 2010. Azerbaijan has about 1000 MW of operating hydropower capacity and an additional 62 MW of planned hydropower capacity.

Could small-scale hydropower be the future of Azerbaijan?

Small-scale hydro has significant developmental potential in Azerbaijan. In particular, the lower reaches of the Kura river, the Aras river and other rivers flowing into the Caspian Sea. Hydropower could conceivably provide up to 30% of Azerbaijan's electricity requirements.

Azerbaijan's Azerenergy OJSC repairs the Mingachevir Hydroelectric Power station along with the Azerbaijan Thermal Power Plant within the Rehabilitation Program, AzVision.az reports referring to Azerenergy.
