

Bali solar panels St Vincent and Grenadines

How much does a solar system installation cost in Bali?

For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed. This price typically includes solar panels, inverter, and everything else you need to get a working on-grid solar system installation. Additional costs that may occur include:

Do solar panels work in Bali?

By using solar panels in Bali, Lombok, and the islands east Indonesia you will benefit from a great sun exposure year-round, with some areas better than others. On average, 1kW of solar PV (photovoltaic) system in Bali produces 4.2 kW-hours worth of electricity per day, year-round on average.

How much does a solar system cost in Bali and Lombok?

How much does a solar panel system cost in Bali and Lombok? For a standard rooftop solar system installation in Bali, you can expect around IDR 10 - 20 million (+/- USD 650 - 1,300) per kWp (kilowatt peak) installed.

What size Solar System do you need for a villa in Bali?

A 12.8 kW system is a pretty big system and may not be needed for a standard 2-3 bedroom villa in Bali. Villas around this size might find a 3-7 kW solar system sufficient. Here is another example from a medium-sized 3 bedroom villa in Umalas, South Bali.

How much does a hybrid solar system cost in Lombok?

Like most business and home owners in Lombok, Mr. Y decided to go for a solar energy system with batteries, a.k.a. a hybrid system, so that he can still power his house sufficiently during power cuts. The initial investment for a hybrid solar panel system such as this might look rather high at IDR 300 million (approx. USD 15,000).
