Georgia Power will add 500MW of battery energy storage at four Georgia sites, enhancing renewable energy and requiring quarterly progress reports to the Public Service ...

## Battery storage news South Georgia and South Sandwich Islands

ATLANTA -- Georgia Power will build battery energy storage systems (BESS) at four sites across the state, adding 500 megawatts of electrical generating capacity to help meet a growing demand

According to a report, the UK's National Grid will need to have more than 50GW of energy storage by 2050 to meet its net-zero targets. At the end of 2021, the UK had 25.8 gigawatt-hours (GWh) of pumped hydro storage and 1.65GWh of battery storage. A number of UK officials have sounded the alarm over the impacts of a lack of energy storage.

ATLANTA - Georgia Power's first "grid-connected" battery energy storage system (BESS) has gone into commercial operation, the Atlanta-based utility announced Friday. The Mossy Branch ...

Our film "South Georgia - A Visitor's Guide" is compulsory viewing for all visitors to South Georgia. Its aim is to inspire visitors to respect and protect the island and its wildlife during their visit. Narrated by Sir David Attenborough, and produced ...
