

Belgium hpe smart storage energy pack 1 firmware

Does the HPE smart storage hybrid capacitor support multiple devices?

The HPE Smart Storage Hybrid Capacitor is only supported on Gen10 and later servers. One energy pack option can support multiple devices. An energy pack option is required for 900 series controllers. Once installed, the status of the energy pack displays in HPE iLO.

What's the difference between energy pack and Smart Storage Battery?

NOTE: System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery." Energy pack refers to both HPE Smart Storage batteries and HPE Smart Storage Hybrid capacitors. Make sure that a supported Smart Array P-class Gen10 controller is installed. The installation is complete.

How do I install the energy pack?

Install the energy pack option. Route and connect the cable. Do not connect the energy pack while the server is operating. Verify that all power to the server has been removed. Install the fan cage. Install the access panel. Install the server into the rack. Connect each power cord to the server. Connect each power cord to the power source.

HP SSA replaces the existing HP Array Configuration Utility, or ACU, with an updated design and will deliver new features and functionality for various Smart Storage initiatives as they come online. HP Smart Array Advanced Pack 1.0 and 2.0 features are now part of the baseline features of HP SSA, with the appropriate firmware.

NOTE: System ROM and firmware messages might display "energy pack" in place of "Smart Storage Battery." Energy pack refers to both HPE Smart Storage batteries and HPE Smart ...

Use this procedure to remove and replace either the HPE Smart Storage battery or the HPE Smart Storage Hybrid Capacitor. NOTE: System ROM and firmware messages might display ...

Under the Power tab, it says that the Smart Storage Battery has failed still - despite the new ones being installed this morning. I'm going to try and install the latest HPE Service Pack for the Gen9. I'll post the outcome here. edit - installed the latest service pack and ilo update, problem still persists though.

The capacitor pack can support up to two devices. This server supports the HPE Smart Storage Hybrid Capacitor with the 145mm cable. Before installing the HPE Smart Storage Hybrid Capacitor, verify that the system BIOS meets the minimum firmware requirements to ...
