

Belize itel solar

Where is Itel based?

After 2 years of remote operations and less than one year since construction began, itel has now officially opened its Belize City location. The 40,000 square foot facility will eventually house over 700 call center agents plus support staff signaling a huge investment in the Central American country.

Is it time to invest in Belize outsourcing?

It's time to invest in Belize outsourcing and as the Caribbean's largest homegrown CX partner, we're ready to lead the way," expressed Epstein. After 2 years of remote operations and less than one year since construction began, itel has now officially opened its Belize City location.

Will Belize Electricity compensate you for excess solar energy?

The hope is that through regulations, Belize Electricity Ltd will have to compensate you for excess solar energy flowing to the grid during the day and off-set it against the electricity you are drawing from the grid at night; however, the reality today is the opposite.

Is Belize a good alternative to a saturated market?

"We're seeing strong interest from clients who are recognizing Belize as a great alternative to some of the saturated markets, both in the region and offshore, where it's getting harder and more expensive to recruit and retain talent," stated Yoni Epstein, CD, itel's founding Chairman and CEO.

Is Itel a good CX provider?

Despite an ongoing economic downturn that has affected many CX providers globally, itel has remained resilient and steadfast in its commitment to diversifying its nearshore operations to attract North American brands. Belize has a relatively young outsourcing industry that has experienced tremendous growth of over 80% since 2005.

Is Belize a bilingual country?

Belize is the only Central American country with English as its official language. UNESCO ranked the country 13th globally for investment in education in 2021 and its bilingual talent pool has a strong affinity to North American culture.
