Pro Power Save is designed to reduce energy use and control electricity bills efficiently. Pro Power Save patent-pending technology provides your home with a smooth, stable electrical current that leads to an increase in efficiency, reduction in dirty electricity, and dramatically lower energy consumption.

However, if both subpanels had A/C units on them (1 for home and 1 for suite in back), you would get better savings installing 2 units to the subpanels instead of the main. Another rule of thumb is: Focus on where the large motors on the property are. The closer you install a power saver to the motor, the more kilowatt savings you will get.
