Is Bolivia open to ties with European companies for Lithium Exploration?

Bolivia is open to tie-ups with European and other global companies for lithium exploration and extraction provided they adhere to the country's conditions, president Luis Arce said on Wednesday.

How much lithium does Bolivia have?

The total of Bolivia's confirmed lithium resources has increased 2 million tons to 23 million tons, the Andean country's president said on July 20. (AP Photo/Juan Karita) LA PAZ, Bolivia (AP) -- The total of Bolivia's confirmed lithium resources has increased 2 million tons to 23 million tons, the Andean country's president said Thursday.

Why is Arce pushing to boost Bolivia's role in the lithium market?

Arce is pushing to boost Bolivia's role in the international lithium market after 14 years of little progress that left it lagging behind neighboring Chile and Argentina. The three countries are home to an area that contains a large share of the world's proven reserves of lithium.

How does the EU deal with Bolivia?

With nearly 40% of its population living below the poverty line, Bolivia faces significant wealth distribution inequalities and a strong informal sector. EU relations with Bolivia are not formalised, although trade relations are guided by the Generalised Scheme of Preferences.

Does Bolivia support democratic development aligned with EU values?

Nevertheless, there's a continued commitment to support Bolivia's democratic development aligned with EU values. Under the Global Gateway Investment Agenda, Bolivia's two priority areas are critical raw materials, particularly green lithium, and renewable energy.

Why has Bolivia stepped up its search for international partners?

Bolivia has stepped up its search for international partners to help develop its lithium reserves at a time when demand for the metal is soaring amid the transition to renewable energy around the world and the growth in electric vehicles powered by lithium batteries.
