This project will study the incorporation of decentralized and inclusive renewable energy systems as part of the energy transition in Bolivia. This will involve creating green jobs for micro, small ...

Present in more than 130 countries, our more than 100,000 employees are the energy that drives us forward. They are our greatest strength. Oil and biofuels, natural gas and green gas, renewables and electricity: every day, they combine their expertise and know-how to provide the world's populations with the energy they need.

NDC Status Bolivia submitted its second NDC in April 2022. Key highlights from the NDC Bolivia's updated NDC includes non-greenhouse gas (GHG) mitigation and adaptation targets and actions focusing on water, energy, forests and agriculture sectors. It establishes a total of 31 specific targets to be achieved by 2030. The update does not include a GHG emission reduction ...
