

Can solar power plants improve biodiversity in Bosnia and Herzegovina?

Future development of HPPs and the construction of new dams in Bosnia and Herzegovina should consider Strategic Environmental Assessments and effects on rivers' biodiversity. Solar energy has a great perspective for the implementation of solar power plants that counts for 70.5 × 10⁶ GWh of irradiated energy per year.

What is the potential for bioenergy in Bosnia & Herzegovina?

Concerning bioenergy, the greatest potential lies in wood residues, since forests are one of the main natural resources of Bosnia and Herzegovina. There are currently two biogas power plants, but there is no available data about biofuel and other biowaste utilization. 1. Introduction

Is Bosnia and Herzegovina a good country for solar energy?

With around 60% of the land area, Bosnia and Herzegovina could have between 1.2 and 1.4 MWh/kWp of photovoltaic capacity compared to the world's solar potential. Compared to B&H and other Balkan countries, Serbia has a great potential for the implementation of solar energy.

Where is the first solar power plant in Bosnia & Herzegovina?

In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m². Converted solar energy is sent to the Electric Power Industry of B&H. Its annual production counts 150,000 kWh of electricity.

What is the solar power potential of Bosnia and Herzegovina?

Photovoltaic power potential of Bosnia and Herzegovina from global solar atlas [41]. In 2012, Bosnia and Herzegovina established the first solar power plant (SPP) in the site called Kalesija. This solar power plant generates a power of 120 kWh and the panels are distributed over 1200 m².

Is Bosnia and Herzegovina a good place to invest in geothermal energy?

Bosnia and Herzegovina has a great potential for this energy sector, primarily due to its geographical location and great wealth of underground thermal springs. Geothermal resources of Bosnia and Herzegovina include hydrothermal systems, geo-processed zones and hot dry rocks.

Dr. Admir Softic, Secretary General of the Bosnian Herzegovinian WEC Member Committee, is an Assistant Minister for Sector of energy in the Ministry of Foreign Trade and Economic Relations of Central government of Bosnia and ...

The State Electricity Regulatory Commission (SERC) is an independent institution of Bosnia and Herzegovina, which acts in accordance with the principles of objectivity, transparency and equality, and has

jurisdiction over and responsibility for transmission of electricity, transmission system operation and international trade in electricity as well as generation, distribution and ...

(a) Electricity generation by renewable and non-renewable energy sources from 2015 to 2020, (b) Installed capacity trend in Bosnia and Herzegovina from 2014 to 2021 and (c) Net capacity (MW ...

In January 2023, Sweden took over the Presidency of the Council of the European Union. At today's conference, Johanna Strömquist, Ambassador of Sweden to Bosnia and Herzegovina presented one of the four main goals of the Presidency "Prosperity - Green and Energy Transition". She also talked about Sweden's longstanding efforts in the fight against ...

Bosnia and Herzegovina. These are statistics concerning the civil use of nuclear energy. The variables are: enrichment capacity, production capacity of fresh fuel elements, production capacity of MOX fuel fabrication plants, production of fresh fuel elements, production of MOX fuel elements, production of nuclear heat, annual average burnup of definitively discharged ...
