African Sun Energy is a clean energy company located in Botswana and specializes in the provision of off-grid/grid-tied solar photo-voltaic systems and solar PV pumping systems. We develop, design, build, finance, and operate projects at a range of different scales, currently at a residential level to utility-scale grid-tied projects.

State-owned Botswana Power Corp. has signed a power purchase agreement with a consortium of Chinese enterprises and other companies to construct a 100 MW solar plant in southern Botswana.

Solar energy is a key component of Botswana's strategy to diversify its energy mix and reduce dependence on fossil fuels. By investing in solar power, the country aims to improve energy security, create jobs, and stimulate economic growth while contributing to global efforts to combat climate change.

Solar pumps are the perfect solution for those looking to optimize their irrigation systems while also reducing energy costs. With advanced features like automatic controls and customizable settings, our pumps are designed to provide ...
