

Bouvet Island solaris solar panels

In August 2015, Cochin International switched to running on solar power alone, thanks to the more than 46,000 panels installed over a six-month period at a cost of \$6.27m. The 12MW plant provides more energy than the site needs, saving some for inclement conditions and night-time operations, while also supporting the state's grid.

The previously proposed natural gas power plan in Burrillville would take 40 acres and produce 900MW of power. To produce this same amount of energy with a solar farm would require 9843 acres of land.
