Nedap Energy Systems Apps . Nedap myPowerRouter (Android/iOS) Purpose: Mobile application for myPowerRouter , intended as the interface for your PowerRouter on -the-go; Data: No data is processed in this app. Only PowerRouter data is shown in the interface and therefore sometimes stored for caching purposes.

Manufactured by Dutch company Nedap Energy Systems, the PowerRouter range of solar inverters offers a very special "island mode" feature. In the event of a power outage, island mode will isolate your solar power system from the mains grid in under a second and allow it to continue operating; supplying your home or business with electricity.

Register. Register your guest account for general downloads (limited access - not for business partners).. If you are a Nedap business partner, requiring full access, you have received an automatic registration e-mail and do not need to register yourself.If you have not received an e-mail yet, please contact identification@nedap .
