

Burkina Faso grid company

Who is developing Burkina Faso's solar power plants?

The solar plants are being developed by BioTherm Energy, a Power Africa partner. SONABEL, Burkina Faso's national electricity company, uses thermal (heavy fuel oil) and hydropower to cover an estimated 60% of the country's current electricity capacity. The rest is imported from Côte d'Ivoire and Ghana, as part of the West African Power Pool (WAPP).

Does Burkina Faso have a private sector plan?

The country has had limited experience with private sector development in the energy sector, but the Government of Burkina Faso has set forth a bold national plan and has taken steps to introduce legislation to encourage private-sector investment and to liberalize electricity generation and distribution.

How has Burkina Faso changed over the years?

Burkina Faso has made remarkable progress in recent years, with an increase in installed capacity from 324.6 megawatts (MW) in 2017 to 410 megawatts in 2019. The share of renewable energy also surged from 9.4% in 2015 to 18.36% in 2019.

How much does electricity cost in Burkina Faso?

Burkina Faso currently has some of the most expensive electricity in the region, with cost of production at \$0.22-0.25 USD/kWh.

What will Burkina Faso do in 2025?

By 2025, Burkina Faso seeks to lower its cost of energy, increase the access rate to 95%, increase installed capacity to 2,000 MW, and begin exporting oil and gas to nearby countries.

How long does a power outage last in Burkina Faso?

The average power outage time was 233 hours in 2018, compared with 172 hours in 2017. In addition, the cost of energy remains high for households and businesses, at XOF 75 per kWh of high-voltage electricity in 2019. No on-grid IPPs operating in Burkina Faso

attract companies into weak or emergent off-grid markets such as Burkina Faso and Liberia. The overall portfolio is already diverse and includes a mix of small, local companies and larger, international actors, ... reporting of company performance in the provision of sustainable off-grid services under results-based contracts from BGFA.
