Does JP Energy Group trade sugar?

Global sugar consumption is projected to continue growing at around 1.4% per annum, reaching 199 mln. metric tons by 2029, depending on population and income growth. JP Energy Group has been playing a significant role in trading sugar in large quantities as well as chicken paw and agricultural products. Now's the time to start moving!

Is Cambodia a new regional importer of LNG?

Cambodia's move towards gas-fired power generation not only signifies a commitment to cleaner energy but also positions the country as a new regional importer of LNG. Previously, only five ASEAN countries imported LNG, but this year Vietnam and the Philippines also began major imports.

Will Cambodia replace coal power plant in Koh Kong?

On November 30, Cambodian Prime Minister Hun Manet will announce the cancellation of the planned 700 MW coal power plant project in Koh Kong. Instead, the country plans to replace it with an 800 MW liquefied natural gas (LNG) power plant, expected to be commissioned after 2030, according to Rattanak.
