Copenhagen Infrastructure Partners (CIP) has made a final investment decision (FID) and started construction on a 500MW/1,000MWh energy storage system in Coalburn, Scotland. The Danish private investor is ...

Denmark-based private investor CIP has taken a final investment decision (FID) and begun construction on a 500MW/one gigawatt-hour (GWh) BESS project, Coalburn 1, in Coalburn, Scotland. The project is being ...

Coalburn, South Lanarkshire 200MW/400MWh Battery Storage Project Zenobe's planning application to develop a Battery Energy Storage System was submitted in July 2023 and is currently Eccles, Scottish Borders 400MW Battery Energy Storage System

Coalburn adds to our growing portfolio of large-scale BESS within the UK and we look forward working with Copenhagen Infrastructure Partners, Alcemi and e-STORAGE on the successful delivery of one ...

Denmark-based private investor CIP has taken a final investment decision (FID) and begun construction on a 500MW/one gigawatt-hour (GWh) BESS project, Coalburn 1, in Coalburn, Scotland. The project is being developed by CIP in partnership with UK-based energy storage developer Alcemi and will be one of the largest of its kind in Europe.

Earlier this year, CIP entered into a similar partnership with Amberside Energy to develop a 2GW portfolio consisting of solar and battery energy storage system (BESS) projects across the UK. The projects are to enhance the UK's net zero prospects whilst also maintaining economic opportunities at both a local and regional level.
