ems - smart energy ...

Control Engineer at Contel Smart Energy &#183; A passionate Mechanical Engineer student completing a BSc in Mechanical& It;br& gt;Engineering at Ben Gurion University, with structural knowledge of Solidworks,& It;br& gt;Matlab and C Programming. A team-player with great communication skills and& It;br& gt;endless motivation for gaining experience in this field of work. &#183; Experience: ...

Contel Smart Energy provides an advanced control and optimization hardware and software platform used to maximize the value of energy generation and storage facilities in coordination with the local power grid. We provide big data and analytics tools - with the ability to intelligently predict and activate the means of production and energy ...

The solution required for optimal energy generation and supply is a software-based smart decision mechanism that interfaces in real time with all related factors, including the operational systems of the solar field, the management ...

Find company research, competitor information, contact details & financial data for CONTEL SMART ENERGY LTD of PETAH TIKVA, Central District. Get the latest business insights from ...

Contel Smart Energy provide advanced control and optimization hardware & software platform, used to maximize the value of field energy resources in coordination with local grid and rates. We supply a big data and analytical tool - with the ability to predict and operate smartly the microgrid assets- while taking into account the current ...

Contel SMART ENERGY - develops software systems that enable operators of local electricity networks to significantly save on their energy expenses with the help of proper utilization of green energy. MMTS - packaging solutions, marking, palletizing. Transportation and execution of comprehensive projects for end-of-line solutions and automation ...
