The Cactus Yavia has a battery capacity of 430 kWh and a power of 184 kW. Cactus units can be installed in parallel as needed, achieving greater storage capacity and power. For example, a ...

Flora. Cactus: If there's one word that describes Curaçao's most prevalent plant, it's cactus, and the island hosts hundreds of species. The towering Kadushi Cactus is more like a multi-trunk tree with thousands of needles. The Yatu Cactus is also tall, sometimes as much as 30 feet, but has fewer needles, and is often used to make fences. You'll find both these species in abundance ...

4 · Welcome to Curaçao, a stunning island in the southern Caribbean with a population of over 185,000, where the capital, Willemstad (population: 150,000), sits on the island's southern coast. Known ...

Aqualectra and Wärtsilä; partner on Battery Energy Storage System Willemstad, May 20, 2024 - Aqualectra and Wärtsilä; have taken a significant step towards a sustainable energy future for Curaçao by the signing of a Battery Energy Storage System Agreement. As a part of Aqualectra's ongoing efforts to continue improving its services and better serve the ...

The landmark agreement aims to relook energy management in Curaçao by 2030 and ensure reliable, affordable and sustainable energy for the island. The implementation of a battery energy storage system will allow Curaçao to collect energy from renewable sources such as wind and solar energy and store it using advanced battery storage technologies.

In a time of heightened awareness of the need for energy security at local, national and international levels, battery energy storage systems, such as the Cactus One, offers a ...

Earlier this year, Aqualectra placed an order with Wärtsilä; for a Battery Energy Storage System (BESS), as well as Wärtsilä;'s GEMS Digital Energy Platform. ... we could again sign a significant agreement for the island and people of Curaçao," says Mrs. Neysa Isenia, CFO at Aqualectra. The combination of Wärtsilä;'s BESS and GEMS ...

The system will enable the expansion of renewable energy capacity and the reduction of carbon emissions, representing an important step towards a sustainable energy future for the island. The order was placed by Aqualectra, Curacao's government owned utilities company, and will be booked by Wärtsilä; in Q2, 2024.
