What kind of battery does enernova use?

Create account All Enernova portable power station models use a LFP battery, which is the same kind of battery used in electric cars because it's strong and lasts almost 10 years. Whether used outdoors camping and RV or kept at home as an emergency backup during power outages, Enernova is in a league all its own.

Are enernova portable solar energy storage products good?

Enernova's portable solar energy storage products offer the perfect balance of environmental sustainability and portability. Whether you use it outdoors or keep it at home as an emergency backup in case of a power outage, these products are extremely useful. However, there are similar products on the market, but they are quite expensive.
