

Cyprus expanse energy solutions

What is the goal of the Cyprus Energy Agency?

The goal of the Cyprus Energy Agency for the period 2020-2030 is to study energy storage solutions and to promote policies that will support the Energy Transition of Cyprus in an environmentally sustainable way. " Renewable Energy Sources in Cyprus - Sponsorship plan for the promotion of RES and energy saving - Photovoltaic Systems.

How can res support the energy transition of Cyprus?

The combination of RES, with the rapidly evolving energy storage technologies, make this goal achievable, even for Cyprus. The goal of the Cyprus Energy Agency for the period 2020-2030 is to study energy storage solutions and to promote policies that will support the Energy Transition of Cyprus in an environmentally sustainable way. "

Is Cyprus ready for full electricity market liberalisation?

Currently, Cyprus is in a transitional step before full electricity market liberalisation, which is being driven by the binding timetable of the Cyprus Energy Regulatory Authority (CERA) to ensure the full opening up of the energy market and granting consumers the right to choose their own supplier.

How can Cyprus overcome a high dependency on fossil fuels?

A key hurdle for Cyprus to overcome is its high dependency on fossil fuels for energy - with one of the biggest shares within the EU. This makes it crucial for the country to develop both its renewable energy sources and natural gas, the cleanest of the fossil fuels, as a transitional fuel.

What happens to surplus energy in Cyprus?

A significant amount of surplus energy is therefore not stored for later use, but is instead lost. This is because there is as yet no connection with power grids in mainland Europe, making it hard to export surplus energy. Cyprus is an isolated network, which makes it difficult for the country to rely solely on solar energy.

What is Cyprus' energy policy?

Cyprus' energy policy has created financial support for RES projects, and a special fund was created aiming to support RES and energy saving investments in Cyprus, with revenue derived from consumers paying a 'green tax' levied on electricity bills (currently at EUR0.005 per kWh and EUR0.0025 per kWh for vulnerable groups).
