Dr. Terry Carroll, physicist, founder, principal designer and CEO, has been involved with solar energy research and design for nearly four decades and holds advanced degrees in physics and science education. In addition to his energy auditor certification and teaching, Carroll worked as a residential energy consultant, doing both active and passive solar design and installation for ...

The Carolina Mountain is a 16' x 32' SunCatcher constructed on site using structural insulating panels (SIPs). It combines science, research, knowledge, and technology data gathered from our previous models and incorporates it into a passive solar greenhouse that outlasts and outperforms all other greenhouses. This passive solar design eliminates other fuel requirements and ...
