Welcome to Cleversolarpower ! I'm the driving force behind this site, which attracts over 1,000 daily visitors interested in solar energy. I'm also the author of a popular solar energy book, with over 80,000 copies sold and more than 2,000 reviews averaging 4.5 stars. My mission is to demystify solar power and make it accessible to everyone.

This system is perfect for a small cabin. 3,000W of solar panels, a 10kWh battery and a 3000VA inverter. AC Distribution box with a GFCI and 20A circuit breaker is enough to power your loads.

CleverSolarPower is your ultimate resource for expert guidance and valuable information on designing, installing, and maintaining solar power systems tailored for preppers, vans, ...

User Experience Based on Reviews. FrankOfAmerica mentioned that he has been using four of these 100W panels on his camper roof for four years with little to no degradation. He also praised the panel's durability and ease of installation. A Guy Named Jeff found the panel very convenient when paired with his Jackery 500. However, he noted that the ...
