If we combine these with already producing wells, the future of Equatorial Guinea's energy sector is bright. We plan to maximise the Gas Mega Hub to unlock the region's massive gas reserves which remain stranded. The finalization of our new hydrocarbon law this year will also bring new investors into the country. With the demand for energy ...

Other pages in section Block G (Ceiba Field and Okume Complex) The Ceiba Field and Okume Complex assets comprise six oil fields offshore Equatorial Guinea. The Ceiba Field is located in 600-800 m of water depth on the slope of the southern Rio Muni Basin approximately 35 km offshore. Oil production commenced in November 2000 [...]

Will Equatorial Guinea fulfil its promise as a gas "mega hub," or will stalled negotiations turn what should be a national economic boon into a missed opportunity? The answer depends largely on how quickly the country can nail down gas supply agreements from Nigeria and Cameroon. Right now, things don't seem to be moving nearly fast enough. Will ...
