Rondo Energy. Saudi oil giant Aramco and thermal energy storage firm Rondo in GW-scale deployment MOU. May 20, 2024. Saudi Arabian oil firm Aramco has entered into a memorandum of understanding (MOU) with Rondo Energy, a thermal energy storage company, following an equity investment.

Stay up-to-date with the latest breakthrough in energy technology - the Rondo Heat Battery. Here you'll find stories about essential details, from the battery's innovative design to its potential implications for the future of sustainable heat and power. Stay informed and explore the possibilities of this game-changing technology today!

EDP aims to develop up to 400 MW of wind and solar projects in the medium-term to power up to 2 GWh of Heat Battery installations from Rondo. EDP, a global energy company and world leader in renewable energy, has ...

Oakland-based Rondo Energy, which stores heat in bricks at temperatures it says can be high enough for steelmaking, just raised \$60 million. Rondo and its partner, Siam Cement Group, are expanding a factory in Thailand to make more of its batteries, which are in use at a biofuels plant in California

A full quarter of global energy use goes toward heat that powers industrial processes. To provide clean industrial heat but avoid the variability often associated with renewable energy, a company called Rondo makes a thermal ...

Rondo Energy General Information Description. Provider of renewable energy management products and services intended to make industrial decarbonization possible. The company captures low-cost renewable electricity and delivers ...

Rondo Energy founder and chief innovation officer John O'Donnell said: "Producing and finishing fabrics requires large amounts of low-cost energy, which makes our brick batteries a perfect fit. Today, coal delivers most of the heat and most of the carbon pollution making fabrics, because it's always been cheap and simple to burn." ...

The box is generating lots of enthusiasm. Rondo recently raised \$60m in financing from the venture-capital arms of such corporate titans as Microsoft, a software colossus, Aramco, the Saudi national oil company, and Rio Tinto. It counts various luminaries of tech investing among its backers. After a

Rondo Energy is a multidisciplinary technology leader solving the world's most difficult decarbonization challenges. Engineering Careers Our engineering and R& D teams utilize low-cost, durable, proven materials in a brand new way to help customers dramatically reduce their operating costs and carbon footprint.

Eastman has been collaborating with Rondo Energy to deploy thermal batteries for the project. Rondo Heat Batteries (RHBs) are essentially modular units containing thousands of tons of brick and coils of metal, much like those in the toaster on your kitchen counter. RHBs transform intermittent renewable power -- in Eastman's case, much of it ...

We need heat to make everything from steel bars to ketchup packets. Today, a whopping 20% of global energy demand goes to producing heat used in industry, and most of that heat is generated by burning fossil fuels. In an effort to clean up industry, a growing number of companies are working to supply that heat with a technology called thermal batteries.
