

Financial leasing enters the energy storage industry

Why do energy storage projects need project financing?

The rapid growth in the energy storage market is similarly driving demand for project financing. The general principles of project finance that apply to the financing of solar and wind projects also apply to energy storage projects.

Can you finance a solar energy storage project?

Since the majority of solar projects currently under construction include a storage system, lenders in the project finance markets are willing to finance the construction and cashflows of an energy storage project. However, there are certain additional considerations in structuring a project finance transaction for an energy storage project.

Will a tax credit be available for energy storage projects?

However, with the passage of the Inflation Reduction Act of 2022, tax credits are now available for standalone energy storage systems, and thus lenders may be willing to provide bridge capital that is underwritten based on the receipt of proceeds from an anticipated tax equity investment, similar to renewable energy projects.

Can a PPA be a lease in a 'gross pool' electricity market?

In June 2021, the IFRS Interpretations Committee considered the potential for a PPA in a 'gross pool' electricity market to contain a lease. A gross pool electricity market is one whereby all purchases and sales of electricity are contracted directly with and cleared through a market operator.

What technology risks are associated with energy storage systems?

Technology Risks Lithium-ion batteries remain the most widespread technology used in energy storage systems, but energy storage systems also use hydrogen, compressed air, and other battery technologies. Project finance lenders view all of these newer technologies as having increased risk due to a lack of historical data.

What is a lease in IFRS 16?

In accordance with IFRS 16, arrangements that convey the right to control the use of an identified asset for a period of time in exchange for consideration meet the definition of a lease, even if the arrangement does not take the legal form of a lease.
