

Flooid power systems Mauritania

Who is flooid power systems?

Flooid Power Systems, Inc. is a registered Delaware B Corp, incorporated in 2018 and headquartered in Easthampton, MA. We are a research and development company with a focus on new energy saving and renewable technologies. Built from the belief that we can make a difference and have a positive impact that will help save the planet.

Where is flooid power located?

On Monday, the Gazette was invited on an exclusive tour of the Flooid Power Systems pilot facility, currently located on a property in western Massachusetts that remains undisclosed to the public. "We have kept this under wraps for the last six years," said Mark Maynard, who co-founded Flooid Power and is its chairman and director of research.

How does flooid power work?

Converting the sun's heat into electricity, Flooid Power has no fuel costs, makes no emissions. Flooid Power facilities are compact, comparing favorably with both renewable and legacy power producers. A 10-MW FT-125 will produce 240,000 KWH per day, enough for 7,500 average US homes.

Is flooid power a good fit for a new construction project?

Flooid Power is a perfect fit for new construction projects. Requiring just 200 sq/ft per floor up-and-down 12-25 floors of a building (similar to an elevator shaft), plus part of the roof for thermal collectors, Flooid Power provides standalone, continuous electricity for that building and a few adjacent buildings of similar size.

What is flooid power's Beta plant?

Flooid Power's Beta Plant, a 5-15MW FT125, is scheduled for completion in Spring, 2024, and will be FPS's first fully operational, customer-connected Flooid Power Center. The Beta Plant will enable development of a scalable design to serve any market with affordable, reliable, 100% renewable Flooid Power.
