

What is the French Southern Territories?

The territory is sometimes referred to as the French Southern Lands (French: Terres australes françaises) or the French Southern Territories, usually to emphasize non-recognition of French sovereignty over Adélie Land as part of the Antarctic Treaty System. The entire territory has no known permanently settled inhabitants.

What are the French Southern & Antarctic Lands?

The French Southern and Antarctic Lands are an overseas territory of France that consist of the following: Adélie Land (Terre Adélie): This is the French claim on the continent of Antarctica. Crozet Islands (Îles Crozet): A group of islands in the southern Indian Ocean, located south of Madagascar.

Why are the scattered islands not linked to French polar strategies?

Firstly, the Scattered Islands are mostly coral atolls that formed around Madagascar. They are not linked to French polar strategies because of their tropical climate and face contested sovereignty by several countries including Madagascar and Mauritius.

French Southern Territories is located on the continent of Antarctica and has no directly bordering neighbors. Democratic Republic of the Congo is 6,266 km away, Indonesia is 6,416 km away and Ethiopia is 6,829 km away as the crow flies.. The center of ...

In 2006, the French Southern Territories Nature Reserve was created around the Crozet archipelago and the Kerguelen, Saint-Paul and Amsterdam islands. This reserve, which by 2022 will cover an area of 1.6 million km², is one of the largest marine protected areas in the world and has been a UNESCO World Heritage Site since 2019. Added to this is ...
