

Engie North America has signed a power purchase agreement (PPA) with Google to provide renewable energy from its Chillingham solar project in Bell County, Texas. The 90MW PPA will support Google's operations in Texas and is part of the tech giant's goal to operate on 24/7 carbon-free energy by 2030.

Covering 15 states, the MISO area is one of the largest transmission networks in the US, yet solar and storage have had a battle to gain recognition in the territory.

The AAPowerLink project is set to deploy between 17GW and 20GW of solar capacity and between 36.42GWh and 42GWh of energy storage to connect Australia's Northern Territory with Singapore via 4 ...

The rooftop solar project has a capacity of 12.8MW, and is the largest such project in France. Image: Axpo. Swiss renewable energy developer Axpo has started commercial operations at the largest ...

Solar PV is the only clean energy technology currently on track to receive the level of investment necessary to hit the 2030 climate targets .Image: American Public Power Association.

SEG Solar co-founder and general counsel Michael Eden said: "As a crucial part of SEG's overall strategy, we are committed to developing the Indonesian facility into a highly efficient and competitive vertically integrated PV industrial park by optimising the upstream and downstream layout of the N-type industrial chain.

BNZ is aiming for 1.7GW of PV in southern Europe. Image: BNZ. Independent power producer BNZ has closed a financing deal worth EUR680 million (US\$741million) to fund its ongoing solar portfolio ...

Southern Power and Turner Renewable Energy have purchased a 50MW PV plant from First Solar. The Southern Power and Turner Renewable Energy partnership was formed in 2010. The latest acquisition ...

The project is Southern Power's 30 th solar plant, and its first in Wyoming to reach commercial operation, pushing the total capacity of the company's solar portfolio to 2.7GW. The company's ...

EDF claims the acquisition pushes its French solar portfolio past 320MW with plans to add another 900MW to its development pipeline. The EDF Group has set itself the goal of holding a 30% share in ...

Swift Current Energy has secured a tax equity investment from tech giant Google for its 800 megawatts defined conditions (MWdc) (593MWac [megawatts alternating current]) Double Black Diamond Solar project in southern Illinois, US. This move positions the project to be the largest solar initiative east of the Mississippi River.

FREYR Battery has agreed to take over Trina Solar's 5GW solar module manufacturing facility in Wilmer, Texas.. The \$340m transaction will close by the end of 2024, subject to customary conditions and the completion of a preferred stock issuance.

PV Tech has been running PV ModuleTech Conferences since 2017. PV ModuleTech USA, on 17-18 June 2025, will be our fourth PV ModuleTech conference dedicated to the U.S. utility scale solar sector.

Jonathan Touri&#241;o Jacobo explores how Eastern and Southern European countries have emerged in that race as key players for the European Union to reach 740GW of solar capacity installed by 2030 ...

Tsunami of Chinese solar company insolvencies in 2025 revealed in latest PV Tech Bankability Report By Finlay Colville, head of research, PV Tech October 31, 2024

Located in the northern department of Cesar, the project - dubbed La Loma - consists of around 400.000 solar panels across 387 hectares. The plant was inaugurated last February.

With floating solar on lakes and reservoirs well on the way to becoming a mainstream concept, attention is now turning to the possibilities offered by offshore systems.

Yingli Solar has announced that it has received French CRE4 and PPE2 carbon footprint certifications, enabling the company to extend its presence in both the French market and the wider European ...

French solar asset owners are set for months of uncertainty and potential legal battles as the country's government moves forward with efforts to retroactively cut feed-in tariffs (FiT) for some ...

France's latest rooftop PV auction reached an average price of EUR101.69/MWh.Image: Unsplash . The French government has awarded 179MW of solar PV in its most recent rooftop solar PV tender ...

The French government is proposing to retroactively cut subsidies awarded to certain large photovoltaic (PV) power contracts, with repercussions for project developers and their funders.. France's ...

Located at a Total biorefinery in the southern region of Provence-Alpes-C&#244;te d'Azur and powered by more than 100MW of solar projects, the 40MW electrolyser is expected to produce 5 tonnes of ...

Southern California Edison has completed the first of its proposed 150 solar photovoltaic installations on Southern California commercial rooftops. The company says the project could eventually ...

As well as the new Technology Centre in Sweden, First Solar's primary research and development (R& D) centre is in Perrysburg, Ohio. ... French independent power producer (IPP) Neoen has secured ...

## French Southern Territories solar tech

One of the stove moulds produced by Et-Solar Tech PLC (over 3500 produced to date) is used for production of the Mirt stove, used for baking injera (Ethiopia's staple food), through which over 1,7 million stoves (2010 data) have been disseminated. We also produce (institutional) fuel saving stoves and solar cookers. Partnership
