Is future energy a good company?

They are a very professional team, Jarrod, Sam and Joe have done an excellent job, at the end of the day, they have a tidy up and left the house spotless. Future Energy cost is competitive in the market. I would highly recommend Future Energy to use their services it value for the money.

How can New Zealand achieve its energy goals?

The development and adoption of new renewable power generation, energy storage, demand management and digital technologies, based on a solid strategy and facilitated through good relationships with consumers and communities, should enable New Zealand to achieve its energy goals. We don't need an aspirational target, we need an energy strategy.

The BusinessNZ Energy Council (BEC) is a cross-section of leading energy-sector business, government and research organisations taking a leading role in creating a sustainable, equitable and secure energy future. BEC represents the World Energy Council in New Zealand. BEC is a brand of BusinessNZ, New Zealand's largest business advocacy body.
