

Georgia microgrid final year project

ATLANTA - Officials with Georgia Power and Georgia Tech have cut the ribbon on a project that will be used to evaluate how so-called "microgrids" can contribute to the overall electric grid. A 1.4-megawatt microgrid project located in Midtown Atlanta's Tech Square will serve that portion of Georgia Tech's campus.

ATLANTA -- Officials with Georgia Power and Georgia Tech have cut the ribbon on a project that will be used to evaluate how so-called "microgrids" can contribute to the overall

Meet the 2025-2026 Drawdown Georgia Climate Solutions & Equity Grantees. We are proud to announce the five recipients of the 2025-2026 Drawdown Georgia Climate Solutions & Equity Grants, which aim to advance climate solutions and prioritize equity in our state using the Drawdown Georgia research and solutions as a framework.

ATLANTA, June 16, 2021 /PRNewswire/ -- Georgia Power today announced, in collaboration with Georgia Tech, the opening of the 1.4 MW microgrid project in Tech Square at Spring and 5 th streets in Metro Atlanta. Microgrids are self-contained power systems co-located with the facilities they serve that include generation resources, storage systems and energy management systems.
