Anti-bribery & anti-corruption policy Page 2 of 5 1. Purpose This policy sets forth the commitment of SolarDuck B.V. and its affiliates (jointly "SolarDuck"), to conduct all its business activities honestly, ethically, and in accordance with all applicable laws and regulations.

"Tokyu Land Corporation and SolarDuck B.V. launch Japan's first offshore floating solar photovoltaic (OFPV) power plant, a cutting-edge renewable energy initiative contributing to Tokyo Bay's local production and consumption model."

SolarDuck B.V.??

SolarDuck energy plants were born to be part of the critical energy infrastructure for regions and communities worldwide. Our commitment to durability and predictability is evident in every aspect of our designs. With decades of offshore experience, SolarDuck employs a meticulous approach to the development of its cutting-edge technology. ...

Merganser successfully installed There she is, floating in her natural habitat! Merganser has been successfully installed by Herman Senior b.v., SVITZER MARINE LIMITED, #PorttowageAmsterdam,Nauticas Marine Services, Rijkswaterstaat - our installation partners (often using Damen ships). Getting this clean energy platform out to sea (through the IJmuiden ...

SolarDuck is a Dutch-Norwegian OFS company with strong roots from the maritime industry. The company was established following a spin-off from Damen Shipyards (the largest shipbuilder in the Netherlands). Since then, SolarDuck has worked relentlessly towards the vision to "Electrify the world with OFS". SolarDuck generates offshore solar energy

Tokyu Land Corp. and SolarDuck B.V., in collaboration with Kyocera Communication Systems Corp., have completed the installation of Japan's first offshore floating solar photovoltaic (OFPV) power plant on the sea surface as part of the Tokyo Bay eSG Project, an initiative of Tokyo's Policy Planning Bureau.

SolarDuck aims to capitalize on the demand for renewable energy solutions through hybrid offshore wind and solar plants, increasing the energy output for the utilised water surfaces. Governmental incentives provide strong incentives for ...

SolarDuck is a fast-growing, Dutch-Norwegian cleantech company pioneering the technology to bring solar PV to the seas. The company (a spin-off of Damen Shipyards, a leading Dutch shipbuilder) was founded in 2019 by a team of experienced entrepreneurs from the maritime industry. SolarDuck is headquartered in the Netherlands and has presence in ...

IRO heeft recentelijk SolarDuck B.V. als nieuw lid mogen verwelkomen. In een persoonlijk interview met

Georgia solarduck b v

Koen Burgers, CEO, maken wij kennis met SolarDuck B.V. De energietransitie zorgt voor enorme kansen. De ambities voor wind op zee in de Noordzee zijn bijvoorbeeld enorm groot. Maar ook de rest van de wereld moet om naar renewables. Het [...]
