

Green house energy solutions Haiti

"Haiti has clear energy issues which need urgent attention. We are extremely proud that ZOLA Electric is taking the lead in addressing this. The partnership is another important milestone in our mission to improve Energy Access and Energy Equality across emerging markets and once more demonstrates the geographic reach of ZOLA Electric.

About 49% of the population of Haiti had access to electricity as of 2022. In rural areas, that number is closer to 2%, and while 80% of Haiti's urban areas have access to electricity, that access may not be reliable. "Even when a household is connected to the power grid, they might only have power for three to eight hours a day."
