

# Greenland solar panels for offices

GreenLand Solar uses "3-target" glass tubes with a large diameter for ETC systems. These tubes can heat water from 25 to 65 degrees Celsius in 4-5 hours on a sunny day in India. The ceramic-coated tanks of Greenland Solar's ETC systems are insulated with high-density polyurethane foam for improved heat retention.

We are Greenland Solar, India's market leader in smart electric vehicle charging stations. Greenland Solar is here with a variety of dependable, sustainable, and safe EV charging solutions as the demand for renewable electricity to power the world's electric vehicles grows. We are focused on giving EV Charging Stations to homes, organizations, and ventures.
