Battery energy storage: the challenge of playing catch up. Battery energy storage systems: the technology of tomorrow. The market for battery energy storage systems (BESS) is rapidly expanding, and it is estimated to grow to \$14.8bn by 2027. In 2023, the total installed capacity of BES stood at 45.4GW and is set to increase to 372.4GW in 2030.

One of the energy storage systems in Germany. Image: Kyon Energy. Developer Kyon Energy, investor Obton and system integrator ECO STOR have commissioned 27.6MW/32.4MWh of battery storage across two sites in Germany. The two projects were built in Bad D&#252;ben and Elsteraue, both in the eastern state of Saxony.
