In Guernsey, we currently rely on fossil-fuel based systems of energy production and consumption and operate a thermal power station. However, it is recognised that as part of the response to climate change, there is a need to transition to an energy mix with limited, if not zero carbon emissions. This is often referred to as the energy transition.

Oolu, a graduate of the renowned Y Combinator accelerator and a trusted provider of solar-based solutions across Nigeria, Senegal, Burkina Faso, and Cameroon, provided clean and affordable energy access to over 800,000 people through a diverse range of DRE systems, including solar home systems, productive use of energy (PUE) solutions, and ...
