

Guernsey santacc energy co ltd

CEDEC changed its name to "SANTACC Energy Co., Ltd. (referred to as "SANTACC") and began to transform from equipment manufacture to equipment service. 2017. Won the prize of 19th China patent. Finished large-scaled electric desalting tanks to be applied to the phase-1 of Zhejiang PetroChemical Co., Ltd. Obtained pipeline installation and ...

SANTACC is specialized in energy engineering products and services, committed to technological innovation, with more than 100 core technology patents. For more details > QSHE

Our company, Santacc, signed a contract with China CAMC Engineering Co., LTD (CAMCE) Block 9 of Iraq to provide equipment for ... The 1st Corporate Speech Contest Successfully Held! ... 74 sets of ethylene heat exchanger for ...

SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation technology.

Focusing on the research of desalter for 30 years, we pay more attention to the application of our company's leading technology and rich practical experience in specific cases, to analyze and provide customers with the optimized service of desalting system, to achieve the goal of energy saving and consumption reduction, and to help customers obtain the maximum return with a ...

The electric dehydrator relies on the electric field force to demulsify and dehydrate the water-in-oil emulsion. It has high efficiency and fast speed, and is widely used in various oil fields. At present, the electric dehydrator uses a sinusoidal AC power supply with a power frequency of 5...

Our company, Santacc, signed a contract with China CAMC Engineering Co., LTD (CAMCE) Block 9 of Iraq to provide equipment for ... The 1st Corporate Speech Contest Successfully Held! ... 74 sets of ethylene heat exchanger for 1.5 million tons/year of Shandong Yulong Petrochemical project, contracted by Santacc Energy Co., Ltd., was officially ...

Santacc was awarded the title of 2022 product high-quality Development. About Company SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation technology.

Water Electrolysis. Taking water as raw material, utilizing surplus, cheap and unstorable valley electricity or electricity generated from renewable energy sources such as photovoltaic, wind power, hydropower, etc.;

Guernsey santacc energy co ltd

catalytic electrolysis of water is carried out, and water molecules undergo electrochemical reactions on the electrodes, generating hydrogen at the cathode and ...

Electrostatic Desalter and Electrostatic Dehydrator. Type: DC type, AC type, AC-DC type, High-speed and High intelligence response, multi-gradient confound Product size: Customized design and manufacture according to application condition and client"s request. Material: carbon steel, cladding material such as Carbon steel + stainless, Carbon steel + Nickel base alloy.

This metering and prover skid, designed and manufactured by Santacc Energy is the first high-tech metering system by independent research and development in China. Application: Widely used in input and output of crude oil and refined oil,can be regarded as the general equipment configuration for transportation handover departments of oil fields ...

To provide energy industry with energy conservation and environmental protection with advanced technology production and services. ... SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil ...

Our company, Santacc, signed a contract with China CAMC Engineering Co., LTD (CAMCE) Block 9 of Iraq to provide equipment for ... The 1st Corporate Speech Contest Successfully Held! ... 74 sets of ethylene heat ...

SANTACC is the first company in China specialized in the research and development of high voltage electrostatic separation, and has devoted itself to the research crude desalting technology on refinery and oil-water separation ...

Chad project of Liaohe Engineering Co., LTD Sudan FPF project Sinopec Qingdao Refining and Chemical Co. LTD Zhonghai Asphalt (yingkou) Co. LTD Sinopec Beijing yanshan Branch 8 million tons/year project CNOOC LF 15-1 platform chemical injection skid (Shipment in Nov. of 2021)
