

H2 energy kft Italy

What does h2energy do?

Additionally, we engage in leading conferences and workshops from a scientific standpoint, contributing to sustainable development and the proliferation of hydrogen. H2Energy is specialized on the design and construction of integrated systems for hydrogen production.

Is H2 Energy a green hydrogen plant?

H2 Energy has successfully established the first industrial-scale green hydrogen plant in Italy, boasting a modular and easily maintainable design. The technology, based on PEM and AMSE solutions, allows for efficient hydrogen production from renewable sources, supporting load shifting and finding applications in various industrial processes.

Is H2 Energy a viable alternative for a sustainable future?

Claudio Mascialino, H2 Energy's CEO, emphasizes the importance of pioneering efforts in green hydrogen technology to ensure a sustainable future. The company's innovations aim to lower costs and achieve greater efficiency, making hydrogen a viable alternative for a renewable future. Read the complete article on Wired.

H2 ENERGY SRL | 2.904 follower su LinkedIn. H2 Energy design, produce industrial scale electrolyzer systems, thanks to the know-how of +20years of work. | We produce electrolyzers, i.e. generators of hydrogen (and oxygen) based on the electrolysis of water. We are able to supply complete systems based on hydrogen.
