

Honduras solar system generator

I've noticed a lot that solar system generation tools (e.g. rollforfantasy, SOSSG (now obsolete, though you can find a non-functioning archive at this link, N=0.012, etc) are not detailed enough (don't detail or include moons, don't provide statistics about the planet, etc) or are very unrealistic. Thus, I've decided to make my own: WalkerSysGen, which generates detailed ...

If you google "solar system generator", there are some good ones but all are text-based and to me, they leave a lot to be desired. And if I wanted to port these online generators to SE, I would have to create .sc files from scratch and copy all the values over manually, which is boring, and would take a lot of time to visualize just one system. ...

I just released a new solar system mapping / procgen tool I've been working on. I experimented with maps like this for the playtest adventure of Drier Deserts, Hotter Suns and really liked them, but wanted a way to generate them quickly. Here it is!

Solar System Generator. A downloadable project for Windows. Download. Hold left mouse button down to move around the screen. Mouse wheel for zooming in/out. Click the generate new system button located on the bottom left side of screen. Generate a few solar systems that will have varying stars, planets, and moons. Inspired by Distant Worlds ...

For reference, our solar system's star, called "The Sun", is a G-Type Main Sequence Star. AU stands for Astronomical Unit and is a unit of length; approximately the distance between the Earth and the Sun. The letter refers to how hot the star is, with the letters, in order of hottest to coolest, being O, B, A, F, G,

I don't play Dark Heresy, but I do enjoy putting my regular 40k games in a narrative context and am woefully poor at thinking up system and planet names! For the sake of crusade / campaign games, it would be amazing if it was possible to tick a "force multiple habitable planets / satellites", but that's just me getting greedy.

Welcome to your solar system generator! Start a new solar system. Name your solar system: Name your star: Choose your star's spectral type: This project uses the Morgan-Keenan system of star classification. Read more about the Morgan-Keenan system here. How many planets would you like?

Procedural Sol System Generator. This tool is a procedural generator that I built to simulate the formation of a solar system and the birth of alien factions within it. Everything in this is procedurally generated, one way or another: from the starry background to ...

Solar system creator. With this solar system creator you can easily generate a random solar system, complete with basic information on each planet, or choose to create your own, and add your own descriptions for each planet. There are two parts to this tool. The first, seen directly below, is the randomizing version.

The oldest star the system can generate is 12 billion years old (12 billion years). The known universe dates back 13.8 billion years, so it is possible to find an ancestral planet that predates the C^{tan}).
