What does Intercontinental Energy do?

InterContinental Energy celebrates its 10th year milestone of pioneering green hydrogen development at scale. Milestones Using upstream wind and solar, InterContinental Energy is committed to accelerating the energy transition through large-scale production of green fuels with partners.

Does Intercontinental Energy have a project agreement with hydrogen Oman?

Intercontinental Energy has entered key project agreements with Hydrogen Oman SPC (Hydrom) as part of the consortium for the Green Energy Oman project.

Who have invested in Intercontinental Energy?

InterContinental Energy received USD 115 million in equity investment from GIC, a leading global institutional investor, and Hy24, the world's largest clean hydrogen pureplay investor.

Who owns Intercontinental Energy?

In April, the Government of Singapore Investment Corporation (GIC) became the strategic investor of InterContinental Energy. In late 2022, bp took over the operatorship of AREH and the project was renamed the Australian Renewable Energy Hub. In January, Shell joined the GEO consortium as the lead operating partner.

Who is responsible for Project Management at Intercontinental Energy?

Pierre Pretorius is the Head of Project Delivery and Oversight at InterContinental Energy. He is responsible for... Vinod Patel is the Downstream Director at InterContinental Energy. Working together with partners, he is responsible... Warner Priest is the Midstream Director at InterContinental Energy.

Who is the CEO of Intercontinental Energy?

Alex Tancock is the CEO and Chairman of the Board of InterContinental Energy. An experienced, respected and... Tony Nieman is the Head of Middle East at InterContinental Energy. He is responsible for leading the activities and... Isaac Hinton is the Head of Australia at InterContinental Energy. He oversees the company's Australian...

Muscat - 5 June 2023 - InterContinental Energy, a company committed to delivering green hydrogen at scale, today announced its entry, as part of the consortium of the Green Energy Oman ("GEO") project, into key project agreements with Hydrogen Oman SPC ("Hydrom"). The project agreements grant the right for the GEO project to develop facilities for the production of ...

For those who aren't familiar with InterContinental Energy (ICE), can you provide an overview? ICE is a green fuel company focused on mega scale projects to deliver economies of scale and competitive pricing in green ...

The modular engineering design of the P2(H<sub>2</sub>)Node(TM) centres the electrolysis systems within the wind and solar fields, minimising electrical losses while transmitting the vast majority of renewable energy in molecular form, rather than electrical form. This significantly improves efficiency and permits storage of hydrogen within the pipeline systems
