Both 12V and 24V battery systems operate on the same basic principle: they convert stored chemical energy into electrical energy to power devices. The voltage of a battery system determines how much power it can supply and how efficiently it does so. A 12V battery system mainly comprises individual 12V batteries that deliver a consistent 12 volts.

12-24V Battery Box: Fully pre wired portable smart battery box is your perfect power supply solution; It protects your battery, provides fast and clean access, and connects your motor power cable to the terminal of the box ; Multi Function: configuration includes 2x 50 A anderson input/output sockets, qc3.0 ports & pd18w type-c, 1x12 v female sockets ...
