Will a lithium-ion battery energy storage system be installed in Côte d'Ivoire?

A lithium-ion battery energy storage system (BESS) made by Saft will be installed at a 37.5MWp solar PV power plant in Côte d'Ivoire (Ivory Coast). It is the African country's first-ever large-scale solar project and the batteries will be used to smooth and integrate the variable output of the PV modules for export to the local electricity grid.

Why did Ivory Coast build its first solar power plant?

As part of its drive to diversify electricity generation sources and increase the share of renewable energies in its energy mix (45% by 2030), Ivory Coast commissioned RMT to build the country's very first photovoltaic solar power plant, with a capacity of 37.5 MWp, spread over 69,440 550 Wp solar panels and 168 inverter-strings of 250 kVA.

Who builds a solar power plant in Ivory Coast?

RMT builds a 37.5 MWp solar power plant and installs ... Boundiali photovoltaic solar power plant in northern Ivory Coast was built in partnership with the country's government, in particular CI-ENERGIES, and with financial support from Germany. It has been in operation since July 2023.

How will a new power station help Ivory Coast?

In addition to supplying the country with 37.5 megawatts of clean energy, the power station will enable Ivory Coast avoid the emission of 27,000 tonnes of carbon dioxide annually. Up to 300 construction jobs were created during the construction phase.

Why should you visit Ivory Coast?

Ivory Coast is a treasure trove of natural wonders that beckon adventurers and curious souls from around the globe. From the picturesque beaches of Grand-Bassam to the breathtaking Mount Nimba Strict Nature Reserve, each destination offers a unique and enriching experience.

Who built the Ivory Coast Power Station?

The power station was developed by the government of Ivory Coast, with financial backing from the European Union and the German Investment and Development Bank (KfW). The engineering, procurement and construction (EPC) contract was awarded to Eiffage Énergie Systèmes, a subsidiary of the French Eiffage Group.
