

Jersey auxilium energy

How is energy supplied to Jersey?

Energy is supplied to Jersey predominantly through imports; there is also a small amount of on-Island production. The primary supply of energy is either distributed to consumers in its original form or is transformed into different sources of energy; for example, petroleum products can be burned to generate electricity.

Is Jersey under pressure to develop a long-term energy strategy?

Jersey's government is under pressure to develop a long term strategy for energy production and consumption, according to an island think tank. Mark Boleat from Policy Centre Jersey said "inertia is a problem" identified within its report on energy policy.

Is Jersey's energy resilience 'weak' and 'limited'?

The Government of Jersey's ability to ensure continued energy supplies across the island in an emergency has been criticised as "weak" and "limited". The Comptroller and Auditor General (C&AG) made the comments in a report into Jersey's critical infrastructure resilience.

Who are Jersey Energy?

Jersey Energy are specialists in energy auditing and surveying. They are also experts in commercial strategies towards energy efficiency and the only certified BREEAM assessors within the Channel Islands. They offer low energy, efficient, and cost-effective solutions tailored to your requirements. Jersey Energy is not Jersey Gas.

What percentage of Jersey's electricity is imported?

Since 1994, the overall public electricity supply has increased and the proportion of electricity imported into Jersey has generally increased, see Figure 6. Throughout the 1990s imported electricity accounted for between 40% and 60% of Jersey's public electricity supply. In 2022, this proportion was 95%.

Does Jersey electricity need a clear sense of direction?

The head of Jersey Electricity, Chris Ambler, said the government needs to provide "a clear sense of direction." "We really need to move this agenda forward," he said. "We need to experiment with things and we need to do trials. So things like...support for EV charging, things like trials on public transport.
