

Jersey optimera energy

Who is Optimera energy?

Optimera Energy is a consortium made up of Falcon Corporation Limited, FHN Gas Limited, and ND Western Midstream Limited (the "Consortium"). The Consortium has been formed in 2022 to play major part in Nigeria's energy transition with particular focus by developing and executing gas distribution.

What is Optimera Energy Consortium?

The Optimera Energy Consortium has been set up to take on this challenge in Nigeria and close the energy gap by developing and executing energy projects utilizing low-carbon resources such as Natural Gas. As environmental stewards, we are strongly committed to strict adherence to our Environment, Social and Governance policies.

Is Jersey under pressure to develop a long-term energy strategy?

Jersey's government is under pressure to develop a long term strategy for energy production and consumption, according to an island think tank. Mark Boleat from Policy Centre Jersey said "inertia is a problem" identified within its report on energy policy.

Who are Jersey Energy?

Jersey Energy are specialists in energy auditing and surveying. They are also experts in commercial strategies towards energy efficiency and the only certified BREEAM assessors within the Channel Islands. They offer low energy, efficient, and cost-effective solutions tailored to your requirements. Jersey Energy is not Jersey Gas.

How is energy flow measured in Jersey?

The overall flow of energy in Jersey may be examined by combining all the individual commodity balances into an "energy balance" which shows the energy flows from production to final use, including movements between fuel categories.

How does TPES work in Jersey?

TPES for Jersey predominantly consists of imported petroleum products and imported electricity. There is also a small contribution (around 2%) to TPES from electricity generated within Jersey by the Energy Recovery Facility (formerly known as Energy from Waste) and Jersey Electricity solar panels.

Jersey Energy can offer a wide range of services and skills to any project, from feasibility, concept designs and modelling through to project management and client representation. As well as Building Services design, we are experts in renewable technology and energy efficiency, an ethos that runs through every project we undertake. ...
