J.R.W. Utility Public Company Limited is a Thailand-based company, which is principally engaged in the contractor, consultation, installation, repair, inspection, trading and ...

Unless you're living somewhere with often power outages solar power in general doesn't make a lot of sense on the individual level. It only makes sense imo for commercial buildings or local power generation. Another exception of course if you use a lot of power during the day (like say you run the AC 24/7 and have a lot of fridges).
